

# Polymer Additives

# About PMC Polymer Additives

PMC Group offers one of the broadest portfolios of polymer additives in the industry - in a range of product types (custom blends, discrete components or one-pack systems) and in a wide variety of physical forms (beads, flakes, liquid, pastilles, mini-pastilles, pellets, powder, prills).

## Portfolio of Polymer Additives

- Amides
- Bisamides
- Flame Retardant Masterbatches
- Lubricants
- Metallic Stearates
- One-Pack Systems
- Specialty Esters
- Stabilizers
- UV Masterbatches
- Waxes & Wax Blends

## Key Markets Served

- Adhesives & Sealants
- Automotive & Transportation
- Building & Construction
- Chemical Manufacturing
- Coatings, Ink & Adhesives
- Consumer Packaging
- Elastomers
- Electrical & Electronics
- Graphic Arts & Signage
- Industrial Packaging
- Medical
- Personal Care & Cosmetics
- Pharmaceutical
- Polymer Compounding
- Polyolefin Films
- Telecommunications
- Textile & Fiber
- Tire & Rubber
- Wire & Cable
- Wood Composites & Forest Products

# PMC Group has a wide range of products for use in the processing of polymers

## PMC is a Leading Global Producer of Polymer Additives

Our wide range of polymer additives includes products used in the manufacturing of polyolefins, engineering resins, styrenics, rigid PVC and CPVC-based compounds.

From the reaction of monomer, to compounding, through to the extrusion and molding of polymers, PMC Group has a product that can meet your needs.

### Our Product Range Includes:

- Accelerators
- Antioxidants & Antiozonants
- Antistatic Masterbatches
- Bisamides
- Defoamers
- Fatty Acids
- Fatty Amides
- Flame Retardant Additives
- Flame Retardant Masterbatches
- Flame Retardant Polymeric Compounds
- Glycerol Esters
- Ignition Resistant Styrenic Compounds
- Lubricants
- Metallic Stearates
- One-Pack Systems
- Organotin Stabilizers
- Organotin Catalysts
- Release Agents
- Retarders & Peptizers
- Specialty Esters
- Specialty Fatty Acids
- Stabilizer Masterbatches
- Waxes
- Wax Emulsions

Supported by global sales, technical support  
and customer service teams
